Feast on Peace™

Fasting is an ancient practice most often associated with limiting ones food intake to two small meals and one that is not larger than the two small meals together. In addition, no food is eaten between meals. This method of fasting is meant to create emptiness so that we increase in hunger for God. Perhaps this is the way you will choose to create peace by honoring this ancient tradition that has been practiced in all the major world religions. Perhaps you will choose to include this method of fasting with the suggested *Feast on Peace™*. initiative below, making room for God and Peace.

Below is a list of some alternatives to food fasting and may be the most powerful and effective way to participate in *Feast on Peace™*.

You choose something in your life that is not peaceful to fast from. Commit to just one thing for 40 days with the intention to fast for peace in your life. Certainly it can do no harm and our collective effort may just prove to have a positive effect on our lives and on the lives of those around us and upon our world.

May we all learn to embody peace and live in harmony.

Feast on Peace™ is an initiative about taking positive action to eliminate violence and anything that is harmful from our lives in order to participate in creating peace in our world.

This is the process: For 40 days you choose to **fast from one thing in your life that you know is harmful to yourself, others or to the environment. You replace the attitude or action with one that instills peace, one day at a time, for 40 days.**

When you complete your first 40 days, choose another fast from what is harmful in your life to practice for 40 more days.

We can cause this action to peace and harmony in our world to grow.

Imagine what would happen if all peoples all around the world embraced the practice to *Feast on Peace™*.

Consider involving the children. They are great participators and they will motivate and inspire us. They can help us to pass onto them a peaceful world.

Together we *can* do it.

Please involve the children and teenagers. They can help us to pass onto them a peaceful world. Together we *can* do it.
